

# RH-5R 5-Watt Radio

## USER GUIDE

P.N. RH5R-V2\*

### Changing Channels

- Use [▲/▼] to scroll through the channels until you have reached your desired channel.

### Dual Display

Out of the box, the RH-5R displays a single channel but has the capability to display two channels. This is useful if you continuously switch between channels or need to monitor 2 channels at once.

- To turn on the second channel display press [F], [0], [6], [F]. Then press [▼] to turn on. Press [F] to save and [EXIT] to leave the menu.
- To alternate between the top and bottom channels, press [A/B].

### Keypad Lock/Unlock

- To manually lock the keypad press and hold [LOCK] on the bottom left of the face of the radio until the “Lock” symbol appears. To Unlock press and hold [LOCK] until the “Lock” symbol disappears.
- To turn on Auto Lock press [F], [1], [4], [F] followed by either [ / ] and [EXIT] to leave the menu. This feature locks the radio keypad if there is no key operation for 5 seconds.

### FM Radio

- To activate FM Radio listening, press [FM RADIO]
- Use [▲/▼] or keypad to tune the desired frequency.

### Monitor a Channel

- Hold [MONI] to temporarily change the squelch to zero allowing you to hear very weak signals.

### Programming

- Please contact RT Systems for custom programming software and cables.
