

# Installation Guide

---

Use this cable to connect your mobile radio to a Rugged Intercom.

**This cable works with:**

- RM60 VHF 60 Watt Radios (Manufactured prior to late 2016)
- Midland MXT400 GMRS Radios

RJ45 and 3.5mm connections will connect with your mobile radio. The additional pigtail connection will connect with your Rugged Intercom or Harness. See diagram below for reference.
